PROFESSIONAL SUMMARY

Full-Stack Software Developer with 4+ years of experience building scalable backend systems, high-performance APIs, and cross-platform applications. Specialized in backend optimization and supply-chain systems, achieving up to 80% runtime reduction using linear programming and IBM CPLEX. Proven ability to design and deliver end-to-end products across backend, frontend, and mobile platforms. Strong focus on solving complex business problems with efficient, production-grade solutions.

TECHNICAL SKILLS

Languages: C#, TypeScript, Python, Rust, C

Backend: Node.js, FastAPI, .NET, Django

Frontend: React, Next.js, Svelte, Vue, Angular

Mobile: React Native, Flutter, Kotlin

Databases: MongoDB, SQL Server, Postgresql, MySQL

Tools & Systems: Linux, Git, Docker

Concepts: REST APIs, System Design, Scalable Systems, Performance Optimization, Linear Programming, Microservices, Agile Development, Multi threaded and concurrent programming

PROFESSIONAL EXPERIENCE

Senior Software Developer

Inquizity Metanoia, Mumbai, India

March 2024 - March 2026

- Led development of backend systems and optimization tools for the DataSavi platform, improving system performance by 80%.
- Designed and built SCAP (Supply Chain Allocation Planning API) generating LP models for optimized logistics decisions.
- Developed DropSolve API integrating IBM CPLEX solver, automating workflows and reducing manual effort by 70%.
- Built ATP (Available To Promise) API for real-time inventory and production-based order predictions.

- Architected scalable APIs and data-processing pipelines for high-performance computation.
- Contributed to full-stack development including UI components, API integrations, and data visualizations.
- Collaborated with stakeholders to translate business requirements into efficient technical solutions.
- Mentored junior developers and contributed to technical decision-making and system design.

Tech: Node.js, FastAPI, MongoDB, IBM CPLEX, TypeScript

Full-Stack Developer

LemonYellow, Mumbai, India

July 2021 - February 2024

- Developed Progressive Web Apps (PWA) with real-time features, authentication, and REST API integrations.
- Built responsive UI components and interactive animations improving user engagement and UX.
- Led a team of 4+ developers to build and maintain the company website.
- Optimized performance and SEO, improving page load speed and search visibility.
- Collaborated directly with clients to deliver high-quality features and enhancements.

Tech: React, Next.js, Node.js, Express.js, MongoDB

Developer Intern

LemonYellow, Mumbai, India

May 2021 - July 2021

- Redesigned and developed client website focusing on performance, scalability, and clean architecture.

PROJECTS

Stories.io

Full-stack social storytelling app with authentication, likes, comments, and private stories.

Tech: React Native, Express.js, MongoDB

Tic-Tac-Toe Multiplayer

Real-time multiplayer game with WebSocket communication.

Tech: Svelte, Koa, Socket.io

Tunes

Cross-platform music player application.

Tech: Flutter

Pomidoras

Lightweight Pomodoro timer built in C using Raylib.

Tech: C, Raylib

EDUCATION

Bachelor of Computer Science (BCS)
Mumbai University, 2022

ADDITIONAL HIGHLIGHTS

- Strong expertise in backend optimization & supply-chain systems
- Experience in end-to-end product development (backend + frontend + mobile)
